Improved Hardware in Stock

Our major improvements, utilizing both our team of engineers and customer feedback, include:

- ① New anodized aluminum mouthpiece with a lower lip that secures an all-new gasket to form an airtight seal around glass tank.
 - ② Refined precision of machined, medical grade 303 stainless steel pieces by implementing stricter engineering tolerance control.
 - ③ Improved ceramic heating element formula and composition to allow for optimal oil vaporization with each draw.
 - ④ Increased oil flow precision to our improved ceramic heating element via updated pore sizes.
- *85% decrease in clogging and leaking rate through cartridge re-engineering**
- ⑤ Larger airflow passages from top to bottom to facilitate a larger draw and dose with maximum flavor.

New label with unprecedented lab transparency

Our redesigned **KurvanaScope** labels have been updated to showcase even more information at a glance.

- ① Now featuring three additional analysis including Vitamin E Acetate, Foreign Matter, and Mycotoxins. All testing performed by Cannalysis, a certified CA Laboratory.
- ② New Primary Terpenes designed for increased legibility.
- ③ Lot Numbers are now replaced with a Manufacturer Unique Identification (UID) tag.
- ④ As a State Licensed Operator, compliant Track & Trace implementation began on January 6, 2020. This means both Manufacturer and Distributor Unique Identifier (UID) tags are now included on every 10 pack box and vape package.

Branding | Cartons

10 pack boxes for convenience

Trade | Child-Resistant Packaging

Child-resistant cap

Designed in-house, our patented child-resistant cap is certified, user friendly and uses less plastic than our previous packaging.

Helping Your Customers

Step 1: Remove cartridge from packaging.

Step 2: With the tip facing downwards, simultaneously push down on plastic cap and twist the cap counterclockwise.

Note: If the cap does not remove, ensure you are pushing the cap into the cartridge completely.

Step 3: Once the cap is removed from the cartridge set cap aside for future use.
