

# CARBON<sub>21</sub>

CARBON<sub>21</sub> is our pinnacle vape line, consisting of carefully curated raw concentrates in our latest hardware. We pair our proprietary live-plant curation with a unique extraction method for each strain in this line. Deliberately crafted in small batches, each strain is presented in its rawest concentrate form—rich with the cannabinoid, flavonoid, and terpene complexities of the live cannabis plant. An experience most similar to dabbing your favorite concentrates.
