CARBON₂₁ BADDER

CARBON₂₁ Badder is one of many extraction methods we use to produce a potent concentrate with high levels of THCa (tetrahydrocannabinolic acid) and incredibly robust, raw terpene profiles. The quality of our whipped, cake-like badder concentrates paired with our proprietary extraction processes creates a clean, smooth, and on-the-go vape experience worth sharing.

Miracle Cake Badder

MAC × Ice Cream Cake

Hybrid | Earthy, Pungent, Floral

A pairing of the renowned MAC with the decadent Ice Cream Cake genetics develops a fresh, complex taste and comforting body high.
