CARBON₂₁ Sauce

CARBON₂₁ Sauce is one of the premium extraction methods we use to create a potent concentrate with high levels of THCa (tetrahydrocannabinolic acid) and exceptionally pure terpene profiles. Our meticulously crafted sauce is designed to deliver a rich, flavorful concentrate experience with a raw terpene profile that remains true to the plant's original essence. The balance between cannabinoids and terpenes provides a bold, full-spectrum vape experience that's smooth, potent, and ready to enjoy.
